- Proficient in [Web Development]
- Excel
- Windows

Experience

Team Fourth Quarter | Helsingborg, Skåne
Content Manager
01/2020 - Current
Supporting a friend who manages a local basketball club by building a new website and managing its content to keep the site engaging and relevant to boost the clubs online presence and fan growth. This is a personal project that I am doing to learn new skills and have some fun.

Code Institute
Software Development Education
06/2019 - 01/2020

- Online Full Stack software development course
- Front-end projects with HTML, CSS and JavaScript
- Back-end projects with Python (using SQL, Flask and Django deploying to Heroku)
- Projects were submitted on a time scale and marked by senior developers with feedback - feedback was based on whether the project met the assessment criteria's
- The course had online tutor coaching but the student is expected to do self learning and use available resources from the web.

Strukton Rail | Malmö, Skåne
Administrerar Data, För Statistik Och Utför Analys
10/2017 - 01/2019

- Performed weekly statistical data checks on rail track job completions and outstanding work required. I mostly worked with Excel calculations where i created templates to support my colleagues with quicker and easier solutions to do daily tasks.
- Supported my colleagues dealing with contract disputes and analyzing large datasets - created specific templates used to show process of filtering data and its results.

Broderskap AB | Malmö, Skåne
Operations Manager
01/2017 - 12/2018

- Managed a food events company which sold food at music, sports and fair events in Sweden, Denmark and Germany.
- Oversaw the recruitment, training, scheduling and logistical deployment of equipment and food for all events which was around 17 events per year.
- Developed cost assessment forecast excel spreadsheets to analyze events

which were successful. The spreadsheets calculated overall profit based on staff costs, food sales, depreciation costs, etc.

- This helped the business owners to identify which food stalls worked better at certain events.
- Started my own business to support hospitality owners in managing their finances.
- My goal was to help owners who don't have a lot of experience when dealing with their cost management to easily identify performance, plan for future outcomes and address potential dangers.
- I created a series of excel programmes which did profit calculations, stock inventory, sales projections and scheduling costs.

Owner | Skåne
Hospitality Specialist
