EXPERIENCE

Code Institute, Online — *Student*

June 2019 - Jan 2020

- Front-end projects with HTML, CSS and JavaScript
- Back-end projects with Python (using SQL, Flask and Django deploying to Heroku)
- Projects were submitted on a time scale and marked by senior developers with feedback - feedback was based on whether the project met the assessment criteria
- The course had online tutor coaching but the student is expected to do self learning and use available resources from the web

Strukton Rail, Malmö — *Administerar Data, för statistik och utför analys*

Oct 2017 - Jan 2019

- Performed weekly statistical data checks on rail track job completions and outstanding work required. I mostly worked with Excel calculations where I created templates to support my colleagues with quicker and easier solutions to do daily tasks.
- Supported my colleagues dealing with contract disputes and analyzing large datasets - created specific templates used to show process of filtering data and its results

Broderskap AB, Malmö — *Operations Manager*

May 2016 - Dec 2018

- Managed a food events company which sold food at music, sports and fair events in Sweden, Denmark and Germany
- Oversaw the recruitment, training, scheduling and logistical deployment of equipment and food for all events which was around 17 events per year
- Developed cost assessment forecast excel spreadsheets to analyze events which were successful. The spreadsheets calculated overall profit based on staff costs, food sales and depreciation costs

Hospitality Konsult, skåne

Mar 2016 - Jan 2017

- Started my own business to support hospitality owners in managing their finances.
- My goal was to help owners who don't have a lot of experience when dealing with their cost management to easily identify

SKILLS

HTML/Sass

Javascript

Python

Heroku

MongoDB

SQL

Frontend animations

VSC/AWS

UX Design

AWARDS
